### A summary of the **Topics** of any **Talks** at Meetings of the CIFHS.

Meeting have been usually on a monthly basis. There was not always a speaker and Talk for some meetings were totally taken-up with Society Business, Workshops, Exhibitions and discussions etc., - and December's meetings have always been the Xmas Party Meeting.

With the advancements in sound recording technology it eventually became a policy to make tape recordings of these **Talks** (the cassettes to be available for Members later use). There were occasions when talks were not recorded for various reasons, in some cases the Venue was not suitable and in others, inevitable technical problems meant some are not 'on tape'. A mention was not always made in the early Journals (*the only source of a record of these talks*) and also some 'announced' talks failed to materialise due to illness, weather etc., **so this record may not be precise.**
